

**Commodity Portfolio**

Grains & Cereals

Oilseeds & pulses

Spices

Vegetable seeds & more...

**Digital Moisture Meter**

It is temper proof capacitance based digital moisture analyzer enabled with Bluetooth, weight measurement and mobile application to remove manual intervention and provide blockchain grade traceability.

**Key features**

**Capacitance measurement for both accuracy and repeatability**

**Battery Operated**

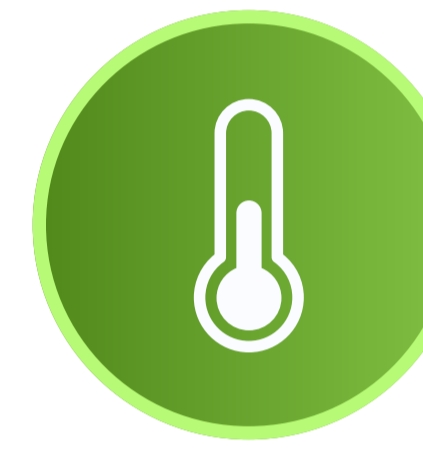

**Bluetooth Enabled**

**Weight Management**

**Up to 150 Samples/hour**

**Automatic Internal Temperature Compensation**

**Sample loading through hopper**

**Printer Connectivity (Printer optional)**

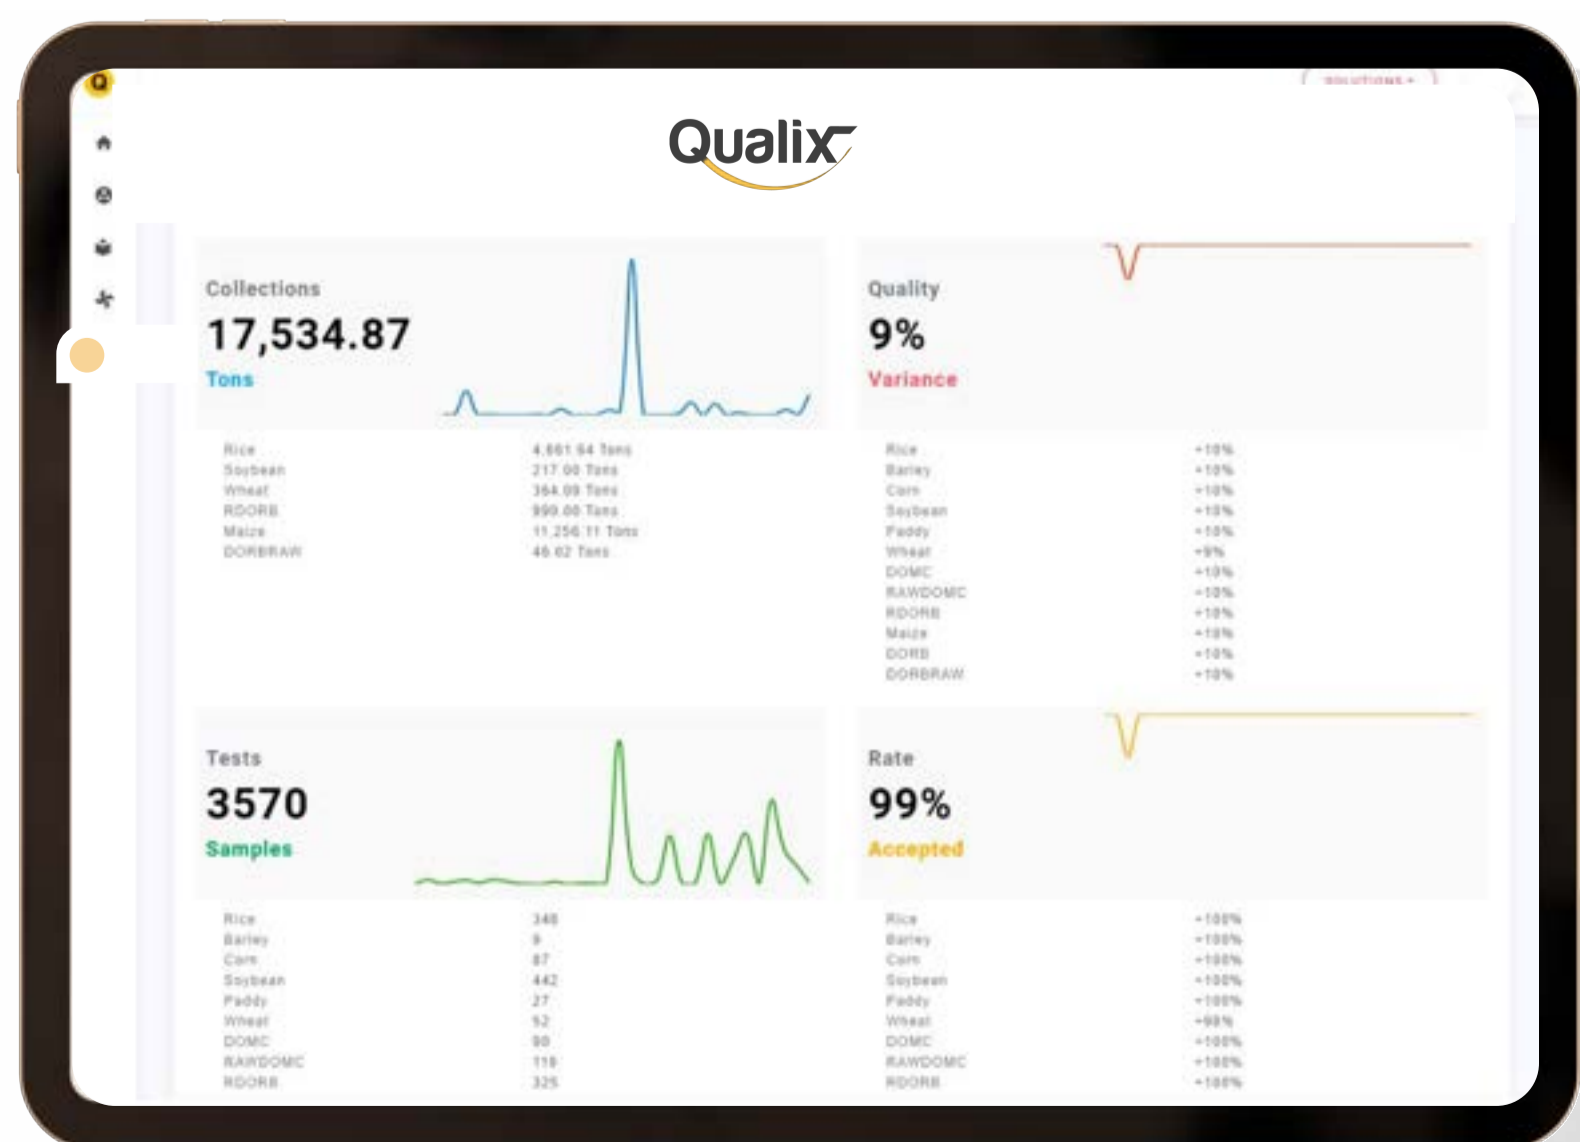

**Device specifications**

Accuracy	≤±0.2 %
Power Requirement	DC/AC, 1000 mAh Li-Ion Rechargeable battery
Connectivity	Bluetooth
Weight	400 gm
Resolution	0.1
Measuring range	0- 50%
Working environment	0-50°C
Repeat error	≤ 0.1%
Temperature compensation	Automatic
Attached function	Sample weight display, Temperature display, Average moisture content calculation
Calibration	8 common varieties have been calibrated in advance, can be tested directly. Commodities can be change as per requirement
Dimensions	150 mm x 110 mm x 135 mm
History	Save up to 200 and more logs
Warranty	1 year from the date of final acceptance of goods or after completion of installation, commissionin & testing of goods (if included in the scope of supply), at consignee location.

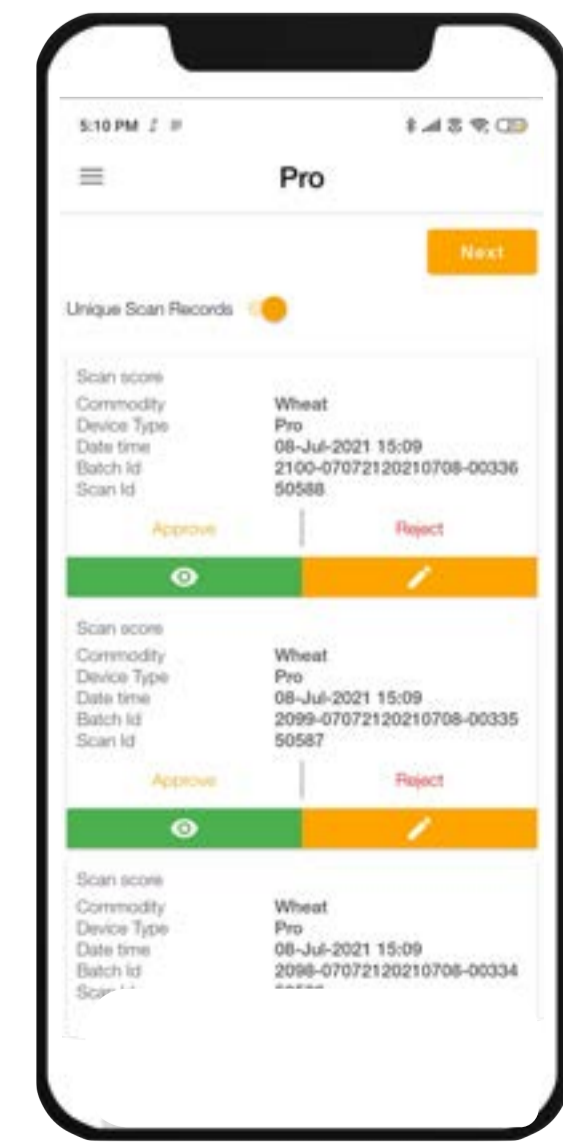

**Additional features**

**SpecX Connect Plus**  
Instant and accurate moisture assessment

**Qualix Management Suite**  
Real time procurement insights with quality maps

**Qualix Operator App**  
Digitized DTR, Automatic results mapped to lot details
